

UK AEC DIGITAL SOLUTIONS LEAD

# DAVID AMAYA-GONZALEZ

## SKILLS

- Project Management
- BIM and Asset Management
- Industry Standards and Processes
- System Integrations
- Data Analytics
- CDE implementation
- Design Automation
- Computational Design
- Extended Realities

## KEY ORGANISATIONS

- Gatwick Airport
- Severn Trent Water
- Facebook/Meta
- Microsoft
- SWECO
- Franklin Ellis
- Scott Brownrigg
- SNHA
- Howells
- Goddard Littlefair

## ABOUT

David is a highly skilled and knowledgeable professional in the field of Building Information Modeling (BIM) consulting and project management. With over 14 years of experience, he is a qualified expert in Digital Transformation, Data Analytics, System Integrations, BIM Management, ISO19650 series, Common Data Environment, BIM360/ACC products, Design Automation, Programming Languages, and Extended Reality Technologies.

David holds a Master's degree (MSc) in Building Information Modelling and Management, which further strengthens his expertise. Currently, he serves as the AEC UK Digital Solutions Lead, where he identifies opportunities to optimise workflows, streamline processes, and improve overall project efficiency. He designs and implements innovative solutions that harness the power of data analytics, BIM management, and automation, resulting in enhanced project outcomes and increased productivity that propel organizations towards digital transformation.

David is known for his technology-driven approach, integrating the right blend of processes, training, and tools to address unique organizational needs. Natural leadership who excels in team collaboration, meeting tight deadlines, and delivering work to the highest standards. His efficiency, problem-solving abilities, self-motivation, and attention to detail make him an

*Technology is the catalyst propelling the AEC industry towards unprecedented heights of productivity and success. In the era of digital transformation, Technology is about getting more done than just doing more. By embracing innovative technologies, organizations can unlock untapped potential, streamline processes, and elevate project outcomes. Technology empowers us to reimagine what is possible, enabling us to accomplish tasks efficiently and effectively. It's the bridge connecting creativity, collaboration, and efficiency, paving the way for a future where the AEC industry thrives on the limitless possibilities of technology.*
